GOOSENECK

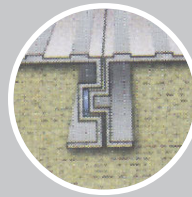

The all-aluminum Heritage gooseneck provides the legendary strength and durability of a Jamco at an exceptional value. It's similar in price to other trailers in its size category, but with Jamco's patented interlocking aluminum plank walls on the lower half and HammerTest™ aluminum bonded core walls on the upper half, it's far superior to the skin-on-frame design of typical trailers. All Heritage gooseneck models are semi-custom, allowing for specific selection and placement of many options, and carry a seven year frame warranty and twenty year pro-rated warranty on plank walls.

MODEL	HORSES	LOAD TYPE	HITCH	DRESS/LO	DRESS/LO LENGTH	WIDTH	HEIGHT	BED LENGTH	OVERALL LENGTH
Heritage II	2, 3 or 4	Slant	Gooseneck	Dress Standard	4'	7'	7'	14', 18' or 22'	22', 26' or 30'
Heritage III	3 or 4	Slant	Gooseneck	Dress Standard	6'	7'	7'	20' or 24'	28' or 32'

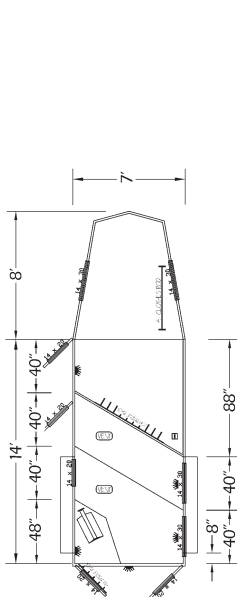

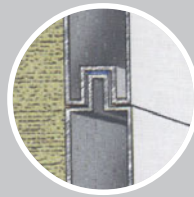

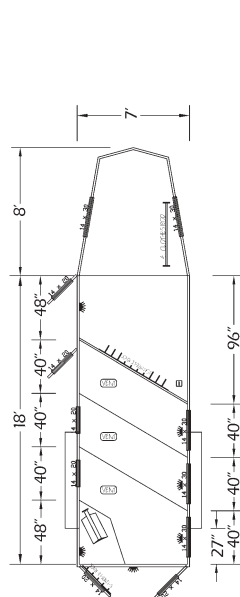

Available on many Jamcos is our unique QuickChange™ post system, which allows for day-to-day changes in the divider configuration, and movement of rear-tack saddle racks. A simple spring-sleeve design is grasped and pulled down, which allows the post to be moved to another pre-drilled location.

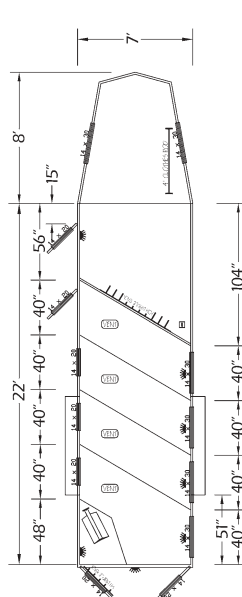

Superior engineering versus rivets and bolts: our walls and floors are constructed with interlocking aluminum planks that are unitized with continuous welds for virtually one-piece strength.*
