

Contender

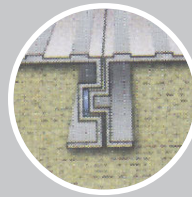

With a number of available sizes and configurations, you're sure to love one of these all-aluminum Legend Contender straight loads offering the legendary strength and durability of a Jamco. Built with Jamco's patented double-thick interlocking plank walls on the lower half and Legend light-wall interlocking planks on the upper half, the Legend Contender offers you and your horses unequaled protection and durability. All Legend Contenders are semi-custom, allowing for specific selection and placement of many options, and carry a five year frame warranty and ten year pro-rated warranty on plank walls.

Available on many Jamcos is our unique QuickChange™ post system, which allows for day-to-day changes in the divider configuration, and movement of rear-tack saddle racks. A simple spring-sleeve design is grasped and pulled down, which allows the post to be moved to another pre-drilled location.

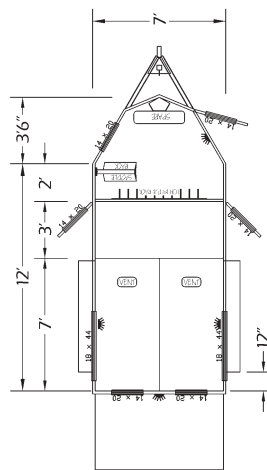

Superior engineering versus rivets and bolts: our walls and floors are constructed with interlocking aluminum planks that are unitized with continuous welds for virtually one-piece strength.*
