

Tradition

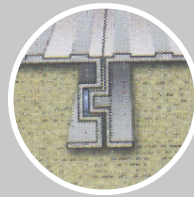

With a number of available sizes and configurations, the all-aluminum Tradition is the top of the line slant load trailer. The Tradition is available as a bumper pull or gooseneck and comes with a great many standard amenities, including a dressing room. The Tradition allows for a choice of width, height and length, along with the specific selection and placement of the many available options. All Traditions carry a seven year frame warranty and twenty year pro-rated warranty on plank walls. If you don't see what you're looking for, just ask!

Available on many Jamcos is our unique QuickChange™ post system, which allows for day-to-day changes in the divider configuration, and movement of rear-tack saddle racks. A simple spring-sleeve design is grasped and pulled down, which allows the post to be moved to another pre-drilled location.

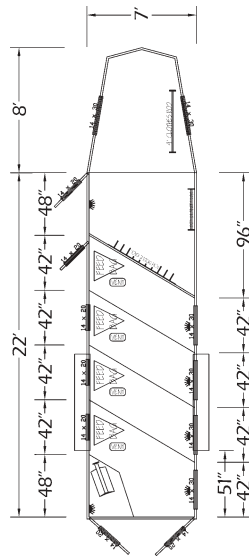

Superior engineering versus rivets and bolts: our walls and floors are constructed with interlocking aluminum planks that are virtually welded with continuous welds for virtually one-piece strength.*
